Profile

Motivated and self-driven aspiring Full Stack Developer with a strong technical foundation gained through intensive training, personal projects and continuous self-learning. I have developed skills in JavaScript, React, Node.js, PHP, Python, SQL and modern web technologies, alongside practical experience building full-stack applications from concept to deployment. My background in engineering, quality management, data analysis and team leadership has strengthened my problem-solving, attention to detail and ability to work effectively in fast-paced environments. I am pursuing a career in software development to combine my passion for technology and continuous learning with my desire to create innovative, user-focused solutions and contribute to a dynamic development team.
